

# IC ENTERRA

Renewable Energy

## OUR QUALITY POLICY

As IC Enterra Renewable Energy, the foundations of our quality policy are based on the following principles:

- Conducting our operations in compliance with legal regulations, environmental standards, and ethical principles,
- Contributing to the effective, safe, and sustainable supply of energy through the operation of existing power plants and the implementation of projects at the investment/planning stages,
- Maintaining fairness, goodwill, and understanding in our relationships with employees, subcontractors, and suppliers,
- Using effective and efficient communication methods with our employees, subcontractors, suppliers, and other stakeholders, and ensuring the sustainability of this communication,
- Being recognized in our institutional relations for consistency and high reputation,
- Delivering high-quality services that exceed customer expectations in all areas of our operations,
- Investing in personal development to enhance staff competence and creativity, and thereby enabling them to take on new responsibilities that support their career advancement,
- Growing by ensuring mutual satisfaction of stakeholders and becoming a symbol of reliability in the energy sector,
- Effectively implementing management systems and systematically conducting analyses within this scope,
- Engaging in continuous improvement activities to enhance and maintain system effectiveness in delivering quality services.
